SUMMARY

A curious skilled Frontend Engineer specialising in React. Experienced with many aspects of web development including implementing authorisation/authentication methods, user journeys and UI/UX and building, connecting and maintaining backend databases both servered and serverless. Passionate and dedicated to expanding my knowledge and skill set in all aspects of development. Currently looking to secure a new Frontend Engineer role in a highly driven team.

RELEVANT EXPERIENCE

Support Developer

03/2023 – 09/2023

RAMONA – Remote (6 Month Contract)

- Teamed with a graphic designer to improve and alter a shopify POS site, meticulously aligning every pixel with wireframe designs.
- Gathered continuous client feedback, exceeding expectations and ensuring user needs were satisfied.
- Employed a test-to-break approach, ensuring seamless performance in all aspects of user functionality.
- Acquired expertise in Liquid rapidly to contribute to Shopify site development.

Junior Full Stack Developer

08/2022 – 03/2023

School of Code – Remote

- Completed a rigorous 16-week software development program, demonstrating a strong aptitude for rapid skill acquisition and a genuine passion for the dynamic tech industry.
- Successfully developed a responsive full-stack web application for locating venues, engaging in 119 pull requests and contributing over 300 commits, all while adhering to a demanding 4-week project timeline.
- Collaborated in pair programming sessions, weekly hackathons, versioning via GitHub, test-driven development, user centered design-thinking, UI/UX and web accessibility.
- Implemented Scrum practices to ensure testing prior to ticket completion, resulting in the successful delivery of 95 tickets, demonstrating a strong commitment to quality and project success.
- Delivered comprehensive demonstrations and presentations, highlighting project's benefits and features.
- Organized, prioritized, and segmented tasks to ensure the implementation of core features, driving the delivery of a Minimum Viable Product (MVP) while also defining and pursuing ambitious stretch goals.
- Utilised Github actions for CI/CD to automate testing, build and deployment leading to efficient, scalable, and robust code deployment, enhancing team productivity and code reliability.

EDUCATION

University of Portsmouth   BSC Economics (2:1)

- Specialising in mathematical/statistical techniques and theories.
- Utilised raw data from government databases to model into usable data for the purpose of analysis.

SKILLS

- JavaScript (ES6), TypeScript, HTML5, CSS3
- PostgreSQL
- Python
- React, next.js, Tailwind
- MongoDB, Supabase, Postman
- Jest, Supertest, Cypress
- GitHub, GitHub Actions
- Figma, Canva, Adobe Creative Suite
- Trello, Miro, Slack, Notion
- Vercel, Render, OAuth
- AWS, Google Cloud
- ElephantSQL

ADDITIONAL EXPERIENCE

Carpenter, Restorer and Furniture Maker

12/2020 – 07/2023

Self Employed

- Worked on various sites across various locations with differing material/tool specifications, ensuring high quality finishing and craftsmanship.
- Collaborated with cross-functional teams to ensure project success and client satisfaction.
- Practiced strict safety protocols and consistently adhered to industry standards while maintaining organization on-site, improving workflow.
- Responsible for the timely completion of tasks, working in a fast but measured way, demonstrating great time management skills.
- Responsible for the writing of Risk Assessment Management Statements to identify safety hazards and comply with safety regulations.
- Collaborated with clients to customize projects and strived for excellence in project finishing, resulting in high client praise and repeat business.

Screen Printer and Designer

08/2018 - 03/2020

Self Employed – Arthub Studios, Woolwich

- Proficient in creating pixel perfect illustrations, seamlessly blending digital and freehand drawings to produce visually captive artwork.
- Demonstrated ability to adapt to diverse themes and styles, making every design uniquely tailored to the project's requirements.
- Accomplished in utilizing a wide range of software and hardware tools to bring design visions to life.
- Experienced in screen printing across various mediums including paper, cotton, linen, cardboard, and wood, maintaining a consistent level of quality and precision.
- Skilled in colour management, ensuring vibrant and accurate colour selection and reproduction.
- Successfully organized and promoted exhibitions featuring both printed artwork and printed products with one piece being selected for Whitechapel Gallery's Creative Debuts.
- Demonstrated ability to manage all aspects of exhibitions, including logistics, setup, marketing and customer engagement.
- Capable of basic accounting tasks, including budgeting, expense tracking, and financial reporting.
